

CHANNELL

# Hand-held coaxial cable strippers

# COAXIAL CABLE STRIPPERS

Channell's high-specification coaxial cable stripper is a handy, easy-to-use tool, offering fast, precision stripping of coaxial cables. Separate depth control for each cut ensures accuracy every time, with no risk of damage to conductors. Weighing just 60gms, the compact cable stripper is supplied complete with five blades, in a smart, durable, protective box.

## Features

- Precision cuts every time
- Impossible to damage conductors
- Adjustable and non-adjustable versions
- Each blade good for approximately 200 terminations
- BT approved

# Coaxial cable stripper 8A

The 8A cable stripper is designed for three-level stripping of 2001, 2002 and 2003 coaxial cable. Quick-change cam and guide inserts are provided for each cable size, so no adjustments to the tool are necessary.

Ordering information and dimensions

Ordering reference	Description	Weight of tool (g)	Box dimensions (mm)
